

Real-time Guest Experience Management for Rental Property Pros

- Frictionless guest satisfaction transparency **DURING** stays
- Real-time service recovery and resolution mgmt.
- Social media reputation management

**AI Powered Reporting
& Analytics**

**Zero Install
Implement In Weeks**

jabFab is a zero-install intelligent guest or tenant experience management platform, used by rental property pros, to affect the outcomes of guest service events in real-time, while continuously improving service quality and staff, guest, and owner relations.

Rental property managers are always busy juggling logistics while balancing guest satisfaction, and having to manually interrupt people during stays, to ask if everything is ok. JabFab offers an unbelievably simple yet effective way to enable your guests to deliver feedback and share their satisfaction with your property and service, during their stay. Now you can have portfolio-wide transparency of guest happiness. JabFab delivers alerts and AI-powered tools to help you act in-the-moment, close service gaps and control your social media reputation.

Get in front of Airbnb, VRBO & Google Ratings

by addressing service experience gaps in the moment **DURING** guest stays.

Authentic Guest Feedback Data For Property Owners
